

SUMMARY

Topic of the final qualification work : Intertextuality in the aspect of interpretation: linguistic means of expression

Author : Chursin A.D.

Academic advisor : Kornienko A.A.

Information about the customer organization : Institute of Roman and German Languages, Informational and Humanitarian Technologies PSU

Relevance of the research topic : the interaction and mutual influence of texts remains an insufficiently studied phenomenon, despite the fact that it attracts the close attention of many scientists, reflected in numerous publications

Purpose of the work : to reveal the roles of allusion, citation, epigraph and text strategy “reécriture” as intertextual media in the process of text interpretation.

Tasks :

- consider the phenomenon of interpretation, its development and formation;
- consider intertextuality and different approaches to its study;
- identify and study the linguistic means of intertextuality that affect interpretation;

Theoretical and practical significance of the study : the research will contribute to the deepening of the theoretical concepts of the interpretive activity, intertextuality and the role of intertextuality in the interpretation of a literary text.

Results of the research : all the studied means participate in interpretive activity, adding new meanings and expanding the boundaries of the reader's understanding.
