ABSTRACT

The theme of the graduation qualification work: Service "Word Cloud" As A Tool Of Formation Foreign Language Lexical Competence Of Pupils.

Author: Kiseleva Mariia Sergeevna

Supervisor of student: Ten Eleonora Guennadievna, PhD, Associate Professor of intercultural communication, linguodidactics, pedagogical technologies of teaching and education department.

Information about customer organization: Pyatigorsk State University, intercultural communication, linguodidactics, pedagogical technologies of teaching and education department.

Actuality of the Research: Today it is impossible not to note the impact of computer technology on the learning process. With their constant development, their sphere of influence is expanding. Today, a computer, information from the Internet can be called standard tools for teaching a foreign language.

In our opinion, the word cloud is a good multimedia tool for the formation of foreign language competence of schoolchildren.

The aim of the research: exploring the didactic capabilities of the multimedia program "Word Cloud" as a means of forming foreign language lexical competence of schoolchildren and present the results in the form of a teaching tool.

Tasks of the Research:

- to consider the concept of "multimedia";
- to determine the goals and objectives of the formation of foreign language lexical competence;
- to analyze language multimedia programs and sites that are popular with teachers of foreign languages;
- to explore the multimedia program "Word Cloud";
- to develop a system of exercises for working with a multimedia language program for the formation of foreign language lexical competence of students;
- develop guidelines for the usage of the service "Word Cloud".

Theoretical and practical significance of the research: study and analysis of methodological, linguodidactic, methodological, psychological and pedagogical literature, the results of experimental studies; analysis of existing multimedia programs for secondary schools.

The results obtained: includes the developed methodological manual, consisting of step-by- step instructions for creating your own word cloud based on the Internet platform and methodological recommendations for using the word cloud for teachers in the school in French lessons with illustrative examples of exercises aimed at developing foreign language competence students.

Recommendations: Our tutorial may be useful for teachers of the French language and students studying in the profile "Theory and Methods of Teaching Foreign Languages and Cultures».
