

## **Abstract**

Graduation Level of Proficiency Paper  
(Bachelor`s degree / Specialist`s degree / Master`s degree)

**Subject matter:** Lexical-semantic group of verbs of destruction on Spanish

**Author:** Mukova Karina Rafikovna

**Supervisor of studies:** CPC, Professor Denisenko L.G.

**Research Initiator:** Piatigorsk State Linguistic University

**Information about customer organization:** Department of Spanish language

**Topical Importance:** relevance of the research topic induced by this study is due to factors, such as an increase in the destruction of the communicative relevance of verbs in speech practice and an interest in the problems of the value of linguistic units, as individual words as whole sentences. Particular interest is the recent study of the semantics of the verb, as the structural and semantic center of the sentence;

**Goals:** describe the lexical-semantic and semantical-syntactic features of Spanish verbs with the value destruction;

**Tasks:** - to determine the nature and scope of destruction and LSG verbs highlight individual subgroups;

- to identify seventeenth (LSV) the composition of verbs within each subgroup;

- to describe the types of relationships between the LSV and establish structures studied LSG;

- to describe the model offers the analyzed verbs, etc.

**Theoretical value and practical applicability:** the basic concepts and methodology undertaken by the research can be used in studies of various groups of verbs, Spanish and other languages. The results help to clarify the operation of certain provisions of the semantic research and contribute to the systematic study of the vocabulary of the Spanish language.

**Implementation advice:** the basic concepts and methodology undertaken by the research can be used in studies of various groups of verbs, Spanish and other languages. The results help to clarify the operation of certain provisions of the semantic research and contribute to the systematic study of the vocabulary of the Spanish language.
